

Did **you** know...

...an **EAA** pilot is waiting to take **you** flying?

If you're between ages 8-17 you can take a free EAA Young Eagles Flight. You'll fly with a local EAA volunteer pilot who will help you take the first steps to make your dream of flying come true. See and experience what real pilots do on the ground and in the air.

Schedule your FREE introductory flight today!

Here's how:

1. Talk with your parents.
2. Go to **YoungEagles.org** to locate the Young Eagles Coordinator closest to you.
3. Contact your local coordinator to schedule your flight.
4. **Take off!**

EAA Young Eagles **Presenting Sponsor**

The EAA Young Eagles Flight Plan is made possible through the **generous support** of our partners.

Inspiring the next generation of aviators

What will **my flight** be like?

Your Young Eagles flight will last approximately 20 minutes and you will see the earth and sky in a new and exciting way. This is your chance to experience the freedom of flight that many people only dream about. Many people remember this experience for the rest of their lives. **You will, too!**

- 1. On the ground:** Your pilot explains what will happen during the flight. You may talk about the airplane, review an aeronautical chart (or map), and complete a careful “walkaround” preflight inspection of the airplane.
- 2. Just before take off:** Your pilot explains the interior of the airplane, including the operation of the aircraft door, safety belts, and instrument panel.
- 3. In the air:** The flight lasts between 15 and 20 minutes. And, if you want, your pilot may let you take the controls!
- 4. Back on the ground:** There’s more time for you to ask questions about the flight. Your pilot is happy to tell you more about flying and their particular airplane.

You also get an official Young Eagles logbook with a personal code to activate your **FREE EAA Student Membership** and Sporty’s Learn to Fly Course.

EAA Young Eagles Flight Plan

Step 1: Young Eagles Flight

Start your aviation adventure with this actual flight experience. If you’re between ages 8–17, you have the opportunity to go flying with an EAA member volunteer pilot. You’ll experience what real pilots do on the ground and in the air.

Step 2: EAA Student Membership

Go to YoungEagles.org/join and enter the unique code that came with your logbook. Your free membership includes *EAA Sport Aviation* magazine online, e-newsletters, free admission to 300+ science and technology museums, and much more.

Step 3: Sporty’s Learn to Fly Course

As an EAA Student Member, you’ll receive free access to Sporty’s Learn to Fly Course (\$199.99 value). This interactive online course uses real-world video and incredible 3D animations to help you learn the basics of flight. Plus, EAA will reimburse you when you pass your FAA written exam (\$150 value).

Step 4: First Flight Lesson

If you’re at least 13 years of age and have completed the first three volumes of the Sporty’s Learn to Fly Course, you’ll qualify for a free first flight lesson at a flight school of your choice. This step is easy—EAA will contact you as soon as you qualify!

Step 5: EAA Scholarships

There’s help out there to support your aviation dreams! You have access to flight training and college scholarships through EAA, including the EAA Air Academy. These scholarships are underwritten by donors who want to help you achieve your dream of learning to fly.
