Chapter Video

The notam for AirVenture has been released. It is different than prior years so pay attention to the details, if you are planning to fly in.

There is a contest – pilot your own adventure. Look online for rules to try for it. June 1 will be deadline.

There is a special – chart it all. A young boy started the company to finance his aviation career \$8 off for aprons specific to your chapter. Get your own chapter centered on the apron. Order by July 1 and you can avoid shipping and pick it up at AirVenture.

A ground breaking has happened for a big expansion of the museum. It will be completed by July of 2022.

National Young Eagles day is June 12. Double YE credits for the chapter if you have your Young Eagle event in June, July and August this year.

Graham from the Chicago Bears spoke about Young Eagles day.

NEW BUSINESS

Move July meeting date up a week

It was decided to move it up a week to July 14 to be further away from the AirVenture dates.

Chapter Project Restart

Bill and Cary would like to get it going again. First thing would be to get the rust off of it. Abby Frisk would probably come. Ryan might also be able to. It will be every other Tuesday – 2nd and 4th one.

Cary and Bill will meet first to figure out where they are with everything.

Young Eagle Build and Fly Restart

Bill would like to start it up again around June 24. He will report back on progress.

ADDITIONAL MATTERS

Technical and Safety Report (Dave Seitz)

The subject was loss of speed awareness. Forty two lives were lost because people were going too slow in the pattern. This is preventable. DMMS Defined Minimum Maneuvering Speed – is set for every type of airplane. There is a video online you can watch about it. Lack of speed awareness in the traffic pattern is usually because you aren't prepared. Stalls and Falls video is also available to watch online.

Adjourn

A motion was made by Linda Salzwedel, seconded by Dave Seitz to adjourn at 8:30pm. Motion carried by member vote.
